

Gene Monroe, M.D.
President
Aurora Advanced Healthcare

As president of Aurora Advanced Healthcare, Gene Monroe, M.D., knows that communication is essential in providing good health care. In his leadership role, he encourages his patients to ask questions and inspires fellow physicians and caregivers to always talk about the best ways to bring quality, convenience and innovation to those they care for.

Dr. Monroe is a board certified dermatologist with a bachelor's degree in economics from the University of Michigan. He has been part of the Advanced organization for more than 30 years, serving as president of Milwaukee Medical Clinic and Advanced Healthcare, the predecessor clinics to Aurora Advanced Healthcare, since 1980. He is responsible for the strategic direction and oversight of more than 2,000 Aurora Advanced physicians and caregivers. Dr. Monroe leads by example. He motivates his fellow caregivers to work as a team and have a positive impact on every patient they meet.

Truly serving the needs of the patients through innovation, quality and controlled costs is something Dr. Monroe understands well. With similar values and visions, it seemed natural to affiliate the primary and specialty care physicians of Advanced Healthcare with Aurora in 2007. Together, the two organizations have combined strengths to provide patients the best care possible.

While spare time is limited, spending time with his family is a top priority. Dr. Monroe also enjoys watching and participating in various sports.
