

# Heritage Tree

## Donors

*The Heritage Tree is a handmade sculpture envisioned and commissioned by the History of the Hospitals Committee and created by sculptor Lynda Sommers. It was produced using the materials from plaques that had been placed throughout the three former hospitals to honor the individual, corporate and foundation donors that generously gave their time, talents, and financial resources to make Aurora Sinai Medical Center what it is today. The names listed here came from these various plaques that were placed on walls and doors from 1863 to 1997.*
