

We're Moving *to serve you better*

Cardiology Department and Coumadin Clinics have moved.

To help meet the growing needs our cardiology program, we are relocating to a bigger space in Aurora Memorial Hospital of Burlington with additional exam rooms and more comfortable, patient friendly areas. Parking for appointments with Drs. Welka and Moran and our Coumadin Clinic will be accessible from our lot on Randolph Street. This move is for clinic services only. Stress tests and cardiac imaging will not be moving from their current hospital area. We will begin seeing patients in the new area August 17, 2009.

Hospital services remaining at this location include:

- Echocardiogram
- Stress-Echo Testing
- Holter Monitoring

For these services, please check-in at the main hospital registration located on the first floor.

For more information about our cardiology services, please call 262-767-8094.

Aurora Health Care is a not-for-profit health care provider and a national leader in efforts to improve the quality of health care.
