Cedar Creek Clinic, Grafton*

## **Advanced and Aurora Health Care. Anticipating the future.**

"I've lived in Grafton for as long as I've been in private practice. I'm pleased about the new relationship between Aurora and Advanced, and excited about the new Aurora Medical Center that will be built here. Patients will have new options for high-quality health care, close to home.

With the new medical center, our patients will be connected to truly integrated health care. The hospital will offer a full-service emergency department staffed 24 hours a day by board-certified physicians. Advances like Aurora eICU Care, Aurora's unique model of patient-centered care, and the very latest technology and treatments will be available right in our community.

Patients will still enjoy the same level of service from Advanced Healthcare that they've always had, and now they'll also have all the resources of Wisconsin's leading integrated health care provider."
