Family Medicine
Aurora Health Center, Port Washington*

Advanced and Aurora Health Care. Anticipating the future.

"We're excited to bring the newest technology available to our community. But more than that, we're delivering a whole new model of care that puts our patients and their families at the center of everything we do. It's what we call integrated health care.

As an Aurora physician, I look forward to working directly with the Advanced Healthcare doctors. With the new Aurora Medical Center to be built in Grafton, we'll have a facility that combines a patient-centered philosophy of care with the latest advances in medical technology.

Aurora and Advanced have a long history of providing excellent patient care. And now with the new medical center, we'll be even better able to assure that our patients get the right care at the right time in the right place."
