Profile

Dr. Morris, Medical Director of the Regional Epilepsy Program at Aurora BayCare Medical Center, is a nationally recognized expert in the assessment and treatment of epilepsy. He has led, or been involved with, numerous research studies that have resulted in more effective treatments and more positive outcomes for hundreds of epilepsy patients.

Dr. Morris has also held faculty positions at the University of Cincinnati, the Medical College of Wisconsin, Marquette University, and is currently Clinical Assistant Professor in Family Medicine at the University of Wisconsin and Medical Director of the Epilepsy Center at St. Luke's Medical Center. His research findings have been published in leading professional journals, and he is a sought-after lecturer nationally and internationally. (02/07)
