

# Tracy L. Capes, MD

## Specialty: Obstetrics & Gynecology

#### **Education and training**

**Medical education:** University of Wisconsin Medical School (Degree earned: MD)

**Residencies:** Columbia-Presbyterian Medical Center - Obstetrics & Gynecology

**Board certified:** Obstetrics & Gynecology - American Board of Obstetrics and Gynecology

#### **Profile**

Urogynecologist Tracy Capes, MD, combines advanced medical training, compassion and understanding to offer women the highest level of individualized care for continence, fibroids and pelvic-floor conditions. Dr. Capes helps women with sensitive urogynecologic and gynecologic conditions, and assists them to choose treatment options to meet their personal health care and lifestyle goals.

Dr. Capes provides advanced laparoscopy and minimally invasive surgery, including robotic surgery. She specializes in the treatment of pelvic organ prolapse, incontinence and fibroids, including techniques for uterine preservation. She works closely with urologists, obstetricians/gynecologists and colorectal physicians to offer comprehensive care.

Dr. Capes has advanced training in female pelvic medicine and reconstructive surgery/urogynecology, having completed a fellowship with The Mount Sinai Hospital.

To schedule an appointment with Dr. Capes, please contact the Center for Continence and Pelvic Floor Disorders at 414-329-5650. (03/12)
