

Doctors want the best for their patients. That means providing the safest and most effective medications. Cost matters too. Studies show that high drug costs are a major roadblock to medication usage for patients with chronic medical conditions. Some people are forced to choose between filling prescriptions and basic living expenses such as rent, groceries or heating bills.

\$3.99 prescriptions make a difference
Our \$3.99 prescriptions save you money. With increasingly high copayments, for many people, they might be the only way to afford lifesaving medications at all.

Our \$3.99 price covers hundreds of prescriptions. That includes medicines for a wide range of conditions and diagnoses. This list is a quick-reference tool that will help you find the specific medications you're looking for. This listing is subject to change and restrictions apply. For the latest information, please visit our Web site at AuroraPharmacy.org.

More cost savings with the 90-day Rx option

For those taking regular medications, our 90-day prescriptions mean convenience, as well as additional cost savings and fewer trips to the pharmacy. And, at \$9.99 for a 90-day prescription, you save even more compared with a 30-day prescription.
