Wiping Out the Flu, One Shot at a Time

Seasonal flu shot schedule

Flu is a contagious disease that causes a lot of illness, hospitalizations and deaths. This year is twice as challenging with seasonal flu and H1N1. The Centers for Disease Control and Prevention reminds us that seasonal flu vaccine is just as important as H1N1. Protection from both requires separate vaccinations.

No appointment necessary

Medicare Part B plans accepted as payment

Must be age 9 or older

(Parent or guardian must be present with any child under 18)

Aurora Visiting Nurse Association of Wisconsin provides health care solutions that enable people to remain independent within their communities.

Seasonal flu shot: \$30

A seasonal flu shot is recommended for:

- Anyone who wants to reduce the likelihood of becoming ill with influenza or spreading influenza to others
- Anyone 50 years of age or older
- All children (must be age 9 or above to receive from Aurora VNA)
- Women who will be pregnant during influenza season
- Anyone with long-term health problems
- Anyone with a weakened immune system
- Anyone with certain muscle or nerve disorders that can lead to breathing or swallowing problems
- Children on long-term aspirin treatment
- Residents of nursing homes and other chronic-care facilities
- Health care providers
- Household contacts and caregivers of children from birth to 5 years of age
- Household contacts and caregivers of people 50 years and older or anyone with medical conditions that put them at higher risk for severe complications from influenza
- People who provide essential community services
- People living in residence halls or other crowded conditions
- People who travel to the southern hemisphere between April and September or to the tropics or in organized tourist groups at any time

Pneumococcal Shot: \$45

A pneumococcal shot is recommended if you are:

- Age 65 or older
- Under age 65 with long-term health problem
- Under age 65 with a disease or condition or taking a drug or treatment that lowers the body's resistance to infection
- Under age 65 and have asthma or smoke cigarettes
