Flu Shots for Students

Per Advocate Aurora Health, students that are completing their affiliation starting after May 1-Sept 30 do NOT require a flu shot because the vaccine is not readily available. If the student will be with Advocate Aurora Health between Oct 1- April 30th, a flu shot is required.

The expense of the flu shot would be the student’s responsibility.

**Verification must be supplied by the student on the first day of the clinical for those clinicals between October 1st and April 30th.**

Resources for students needing a flu shot:

- Advocate Aurora Health Flu Clinics, check Advocate Aurora Health website for info
- Walgreens
- CVS
- Primary Care Provider’s office
- University’s student health center
