Advocate Aurora Health is one of the 12 largest not-for-profit, integrated health systems in the United States and a leading employer in the Midwest with more than 75,000 team members, including more than 22,000 nurses and the region’s largest employed medical staff and home health organization. A national leader in clinical innovation, health outcomes, consumer experience and value-based care, the system serves nearly 3 million patients annually in Illinois and Wisconsin across more than 500 sites of care. As an Advocate Aurora Health hospital, we recognize our role in addressing concerns about the accessibility and affordability of health care and we acknowledge that we are accountable to our patients and our twin-city communities of Marinette, WI and Menominee, MI and that our initiatives to support our communities must fit our role as a not-for-profit community hospital.

The strategies presented here are the result of our process for assessing community health needs, obtaining input from community members and public health representatives, prioritizing needs and consulting with our hospital staff and physician partners.

Our full Marinette and Menominee Counties Community Health Needs Assessment Report is available here: www.aurora.org/commbenefits.
Our Implementation Strategy is organized into three main priorities:

<table>
<thead>
<tr>
<th>Category</th>
<th>Community Benefit Core Principle</th>
</tr>
</thead>
<tbody>
<tr>
<td>Priority #1</td>
<td><strong>Access and Coverage</strong>&lt;br&gt;increase access for persons in our community with disproportionate unmet health needs. in this section we outline our approach to link our community’s most vulnerable residents with medical care.</td>
</tr>
<tr>
<td>Priority #2</td>
<td><strong>Behavioral Health</strong>&lt;br&gt;in this priority we outline our approach to addressing behavioral health needs, a top finding in our needs assessment.</td>
</tr>
<tr>
<td>Priority #3</td>
<td><strong>Hospital Focus</strong>&lt;br&gt;this section describes our approach to addressing obesity within our community.</td>
</tr>
</tbody>
</table>

In addition to alignment with community benefit principles, our strategies illustrate the coordination between population health activities within our hospital or clinic walls and outreach activities designed to target the broader community.

**Principal community health improvement tool: Community Partnerships**

For any community health concern, it is widely recognized that a diverse team of engaged community partners is essential for implementing strategic community health improvement initiatives that make a difference. Therefore, we acknowledge the need to be a good community partner. Our strategies strongly reinforce our role as a partner for community capacity-building to address unmet community health needs.

This Community Benefit Implementation Strategy was adopted by the Aurora Health Care Community Board on August 7, 2019.
Target population
Uninsured residents of Marinette and Menominee Counties

Principal partner
Aurora Medical Group (AMG)

Community partner
Twin Counties Free Clinic

Impact goal
Increased access to care

Priority No. 1:
Access, a signature community benefit focus for Advocate Aurora Health

Current findings
In 2019, 7% of Marinette and Menominee County residents were uninsured, according to County Health Rankings. Additionally, in 2019 the ratio of residents to primary care physicians was 1,450:1 for Marinette County, compared to the Wisconsin average of 1,250:1, and 2,590:1 for Menominee County, compared to the Michigan average of 1,260:1, meaning there many fewer primary care physicians available to residents in our service area. Access to health care was ranked as a top health issue by Key Informants.

Our strategy
For our patients
• Provide appropriate follow-up with non-emergent patients using our emergency department (ED) for primary care
• Recruit primary care physicians, physician assistants, nurse practitioners, and specialty care physicians to the area
• Continue to expand clinic locations into Marinette and Menominee Counties. These clinics, both located in counties designated as Health Professional Shortage Areas, will provide convenient locations for residents to establish a medical home1

MEASURES:
• Number of non-emergent ED visits without a primary care physician
• Number of new providers recruited, by type
• Process milestones of clinic expansion
• Number of individuals accessing care at new clinic locations

For our community
• Update: The Twin Counties Free Clinic will be ending due to low demand for services
• Provide financial counseling that provides both patients and the public with a better understanding of health coverage options available to them and how to better manage health care costs. This will be done primarily through staff financial counselors who are licensed in both Michigan and Wisconsin to encourage sign-ups for both Exchange coverage and Michigan and Wisconsin Medicaid programs during enrollment periods. We will also ensure community agencies are aware of this no-cost service available to their clients

MEASURES, number of:
• Financial counseling sessions provided

Priority No. 2: Behavioral Health, a signature community benefit focus for Advocate Aurora Health”

Current findings
In 2019, according to the County Health Rankings, 23% of Marinette County and 21% of Menominee County adults reported engaging in excessive drinking, according to the County Health Rankings. Additionally, in 2019 the opioid prescribing rate of prescriptions per 100 residents was 60.9:100 for Marinette County (higher than the Wisconsin rate of 52.6:100) and 32.9:100 for Menominee County (lower than the Michigan rate of 74.2:100). Alcohol and drug use were ranked as a top health issue by Key Informants.

Our strategy

For our patients
• Provide medical staff leadership to raise awareness among our prescribers around new state and federal laws impacting prescription practices
• Screen for behavioral health issues in the ED including mental health, depression, alcohol abuse and drug use, and provide follow-up care and referral as appropriate

MEASURES:
• Process milestones
• Number of patients assessed; Number of patients assessed or referred to ADAPT for behavioral health services

For our community
• Raise awareness of how prescriptions can be safely disposed-of
• Provide coordination of the Behavioral Health Alliance. Our hospital will act as lead for resuming quarterly meetings with local partners and law enforcement who deal with various aspects of behavioral health care and response
• Support the Healthy Youth Coalition Every 15 Minutes program. This program, which utilizes our Paramedic and ED departments, works with school systems to provide students with a dramatic enactment of the possible impact of their choices
• Assume a leadership role in the newly formed HOPE Consortium, which will assess current resources available and determine what is needed for residents battling substance abuse in Oconto, Marinette, Menominee, Shawano, and Florence counties. The team will develop a strategic workforce plan to sustain long-term prevention and treatment resources in all five counties
• Support the Tri City HR Employee Awareness Program, coordinated through the Chamber of Commerce, designed to build awareness and educate employees about substance abuse
• Support the local Drug Court, by providing space to perform drug testing

MEASURES:
• Process milestones
• Number of tests performed and cost savings provided

Target population
Residents of Marinette and Menominee Counties

Principal partners
• Aurora Medical Group (AMG)
• Aurora Behavioral Health Services (ABHS)

Community partners
• Healthy Youth Coalition
• Anti-Opiate Task Force
• United Way
• Marinette County Drug Court
• Marinette County Mental Health Court
• ADAPT
• Northpointe Behavioral System
• Libertas
• Chamber of Commerce

Impact goal
Increased awareness and opportunities for behavioral health support

---

Priority No. 3: Focus on obesity

Current findings
In 2019, according to the County Health Rankings, 34% of Marinette adults and 32% of Menominee adults were considered obese. Additionally, 20% of adults in Marinette County and 22% of adults in Menominee County were physically inactive. Lack of physical activity was ranked a top health issue by Key Informants.

Our strategy
For our patients
• Provide medically-based weight loss programs though established patient programs including cardiopulmonary rehab/physical therapy, primary care, and diabetic education

MEASURES:
• Number of participants
• Weight loss progress or other status improvements (BMI, lowered BP, etc.)

For our community
• Provide local school children with educational programs on healthy habits. The program will be developed by our hospital’s Dietary and Physical Therapy staff. It will then be offered to schools for incorporation into physical education/health curriculums
• Continue to invest in local school systems with funding for physical education to support exercise and healthy living programs outside of interscholastic sports programs
• Support local organized walks, runs, and bike rides including organizing the Waterfront Run, Leowstrong Bike Ride, Jim Hodge Run, and Caring Hearts Walk, as well as financially supporting other runs/walks in the two counties. We will also provide discounts and other incentives for youth involvement in these events
• Expand Heart and Sole Sisters Middle School running program to at least two other school systems
• Develop model for promoting and increasing use of hospital grounds walking trails that can be extended to other community resources that promote healthy lifestyles (e.g. bike paths, walking trails, running routes etc.)

MEASURES:
• Number of healthy habits programs provided; number of children reached
• Process milestones related to physical education grants
• Number of run/walk/ride participants, including youth receiving discounts
• Process milestones related to expansion of Heart and Sole Sisters
• Process milestones related to model for increasing use of hospital walking trails; usage rates

Target population
Residents of Marinette and Menominee Counties

Principal partner
• Aurora Medical Group (AMG)
• Aurora BayCare Medical Center

Community partner
YMCA

Impact goal
Increased awareness of and opportunities for healthy habits
Priority No. 3:
Alignment with Community Strategy focus on social determinants of health – Coronavirus/COVID-19 Pandemic Response

Target population
Marinette and Menominee County Residents

Principal partners
- Aurora Medical Group (AMG)
- ACL Laboratories

Community partners
- Wisconsin Department of Health Services
- Marinette County Health and Human Services
- Delta & Menominee County Health Department
- Local Federally Qualified Health Centers, Free Clinics and other local organizations addressing health inequities and social determinants of health exacerbated by the COVID-19 pandemic.

Impact goal
Increase the amount of outreach and education resources available to Marinette and Menominee County residents during the COVID-19 pandemic.

Current findings
On April 4, 2020, Governor Tony Evers declared all counties in the State of Wisconsin as a disaster area in response to the outbreak of COVID-19. Since then, cases have been reported in every county in the Advocate Aurora Health Wisconsin service area. Advocate Aurora Health has implemented several initiatives aimed at increasing the amount of available outreach and education resources in Wisconsin during the Coronavirus/COVID-19 pandemic.

Our strategy

For our patients
• NEW: Test patients scheduled for elective procedures as supplies allow
• NEW: Provide increased number of virtual and telephone visits in order to provide necessary care for patients while minimizing the transmission risk of COVID-19
• NEW: Launch the Safe Care Promise, which includes extra steps we are taking to keep our patients, visitors and team members safe. This includes virtual check-ins, universal masking and screening for all who enter our locations, encouraging social distancing through rearranged furniture and staggering appointment times, and enhanced cleaning in all areas, including additional disinfectant for high-touch spaces.
• NEW: Provide COVID-19 vaccine to patients and community members

MEASURES:
• Process milestones to establish testing for hospital patients
• Number of patients tested within our hospital
• Number of virtual and telephone visits provided
• Number of patients vaccinated; number of community members vaccinated

For our community
• NEW: Increase community member access to reliable COVID-19 information with our system-wide COVID-19 Resource Center
  – Online Symptom Checker
  – COVID-19 Symptom Checker Hotline (866) 443-2584
• NEW: Provide education to community members and local organizations to help them update operations in response to the COVID-19 pandemic so they may continue to provide services safely
• NEW: Collaborate with appropriate community partners to increase access to community testing
• NEW: Provide COVID-19 vaccine to patients and community members

MEASURES:
• Number of community organizations our team members work with to update operations
• Process milestones related to establishing or increasing local community testing

Note: Plans to address selected priorities are dependent upon resources and may be adjusted on an annual basis to best address the health needs of our community during the COVID-19 pandemic.
