Every unit has a laminated “Quick Reference - Emergency Preparedness” poster. Please activate response system, and additional information on that response. Refer to this resource on how to respond to emergencies at the site, phone number to call to
Clinical Group Expectations

Resources:
- The Clinical Affiliations student website is the source of truth and resources - Nursing & MA Student Clinical Placement | Aurora Health Care
  - MW Region Student Undergraduate Nurse and Student Nursing Assistant Policy – also available to view in Policy Tech.
    - **NOTE:** Students are only allowed to pass medications with their clinical instructors. This is in our policy. If a teammate offers, politely thank them but decline. Students can observe an RN during medication administration, but teammates are not to co-sign medications with clinical group nursing students.
  - Student Nurse Skills List - Please use the password “Instructor@aah” to open and review. It is the responsibility of the instructor and the students to know what they can and cannot do while on the unit.
- Nursing Hub – click on the purple stethoscope icon, shown here, on any computer desktop for nursing resources

Student/Instructor Parking & Entrance into the Hospital:
- All students and instructors are to park in the **BLUE lines** in the parking lots.
- Review page 4 for a map of parking lots and entrances.

Identification Badge:
- Picture ID with appropriate security access will be issued to the instructor before or on the first clinical day by the Clinical Affiliations site liaison. These can be picked up in public safety, and access will start on the first date of clinical. All badges must be returned to public safety or the site liaison on the last clinical day.
- Students are to always wear their school ID student badge above their waist in a visible location.

Off-Unit Experiences:
- Off-unit experiences are not a guaranteed part of the inpatient clinical program with the instructor. These experiences are offered as a supplement to the clinical time spent on the unit.
- These experiences will be scheduled **ONLY** through the clinical affiliations site liaison. With the changing nature of health care and to protect both patients and students, there may be times when these experiences may be limited or suspended. Every effort is made to allow students 1-2 off-unit experiences during their clinical rotation at Summit.
- If a student’s assigned patient goes to another department for a procedure, such as a radiology test, the student may follow the patient if the patient and receiving department consent.
- If a student, group, or instructor is seeking out off-unit experiences without the support of the site liaison, that clinical group will not be allowed off-unit experiences during that rotation. This includes emailing, calling, or stopping by
the department.
• Off-unit experiences are observation ONLY.

**Health Insurance Portability & Accountability Act (HIPAA) & Confidentiality**

- Ensure that all patient-specific information is kept private and confidential; this includes during pre-and post-conferences. These conversations should not occur in the hallways or open areas where the public is present. Please have these discussions in a conference room. Reserve a conference room with the site liaison if needed.
- Do not make copies or print from the medical record.

**Access to the Electronic Medical Record (EPIC)**

- A network user ID (Network ID/AAH ID) is required to access the EPIC application.
- Access will be coordinated by the Clinical Affiliations System Coordinator and the school as appropriate, and instructions will be provided to the school.
- For access issues, please call IT first: (414) 647-3520
- Instructors are responsible for co-signing their students’ documentation. Please refer to the student website for resources on co-signing.

**Expectations When on the Unit:**

- No cell phones on the units for students or instructors. These are to stay in your backpack in the breakroom or your vehicle.
- No students in the dictation room – this space is reserved for our providers so that they can document and write orders.
- Computer space is limited in the nurse’s station. Please save this area for the teammates on the unit. Plan to chart all assessments, medications, etc., while in the patient’s room.
- Please be aware of the volume and content of your conversations in public spaces, especially on the units – you represent your school and our facility.
- The instructor must check in with the charge RN before the start of the clinical to review patients and choose appropriate assignments. Please fill out the Clinical Group Communication Tool on the unit. This helps with communication with the team you will be working with (i.e., tasks you can do independently, tasks that must be performed with the faculty, or tasks you are NOT permitted to do, etc.).
- When you are not actively caring for patients, please ask the RNs and CNAs how you can help – answer call lights, round, visit with patients, etc.
- When in doubt, look up the Policy and Procedure on the Nursing Hub; see “Resources” above.
- Handwashing – do it! Please follow our guidelines for the patient’s safety and your own! There are secret shoppers on site conducting hand hygiene audits. If you or your group is found to be out of compliance with handwashing, this can impact the ability to complete your clinical hours at the site.
- Conferencing between instructors and students should take place outside of the unit. Breakrooms offer limited space and privacy. Please reserve pre- and post-conference rooms with the clinical site liaison.
