CLINICAL EXPERTISE AND SPECIALTIES

Cardiac Care
Internationally known for expertise in interventional cardiology, electrophysiology, transcatheter valve implants, and a top 10 center in the world for minimally invasive, robotic-assisted heart surgery

Cancer Care
Advanced cancer care under one roof for all types of cancers with a wide array of treatment options including stem cell transplant, cellular therapies, radiation therapies and precision medicine principles

Hyperbaric & Wound Care
Internationally recognized as the birthplace of clinical hyperbaric medicine. St. Luke’s is home to one of the largest hyperbaric chambers and busiest programs in the country. Comprehensive care that includes hyperbaric medicine, inpatient and outpatient wound care, and a multidisciplinary limb preservation program.

Organ Transplant Services
More than 1000 heart transplants, 700 kidney transplants, and 500 liver transplants conducted, as well as extensive experience in pancreas transplantation

Neurological Care
Extensive neurosurgical and neuroendovascular capabilities support our accredited comprehensive stroke program, brain cancer therapies, epilepsy, movement disorders and the full spectrum of neurological care

Spine Care
Comprehensive spine care services including spine physiatrists, surgeons, pain management specialists, rehabilitation services, and integrative medicine

Women’s Health Care
Mammograms, minimally invasive surgeries, gynecological surgical oncology, pelvic floor physical therapy, incontinence and more

CARING FOR OUR COMMUNITIES

Emergency Department patients were referred to Federally Qualified Health Centers to establish a medical home as part of the Milwaukee Health Care Partnership

Karen Yontz Women’s Cardiac Awareness Center provides health risk assessments and lifestyle practice recommendations

Aurora Walker’s Point Community Clinic is the largest free clinic in Wisconsin and serves a community of individuals that often face barriers to accessing care

2900 W. Oklahoma Ave., Milwaukee, WI 53215 | aurora.org/stlukes | 414-649-6000

Aurora Health Care | Now part of ADVOCATE HEALTH
Parking:

Students and instructors should park in the Dakota parking structure located at 29th and Dakota streets. Please enter the building through the Medical Office Building 1 (MOB1) entrance near 29th St and Kinnickinnic Parkway. Because the lot requires badge access, students will need to press the button on the intercom for public safety to open the gate.

In winter, feel free to take the shuttle bus that picks up at Dakota and drops you off at the MOB1 entrance.

The Dakota ramp is located behind the Aurora Conference Center at 2920 W. Dakota St.

***If your clinical start time is during 2nd or 3rd shift, please park in the Main Parking Structure attached to the hospital.
Hospital Map:

Different areas of the hospital are color-coded. Follow the colored floor tiles to get to your desired building.

Who To Call For HELP

Step 1) Identify the concern
Step 2) Dial 22
Step 3) Communicate the team needed and provide specific location

CODE TEAM
INPATIENTS OUTPATIENTS RECEIVING PROCEDURAL SEDATION
- Pulseless
- Not breathing
- Unresponsive
- Lethal condition changes such as:
  - Profound hypotension
  - Profound hypoxia
  - Lethal rhythm change
  - Massive blood loss
This includes "Selective Treatment/NO CPR" patients that are agreeable to ANY of the following:
- Intubation
- Antiarrhythmics
- Cardioversion
- Vasopressors

FIRST RESPONSE
OUTPATIENTS VISITORS TEAM MEMBERS
- Those who need immediate medical assistance (including NO CPR patients)
- Acute changes in:
  - Heart rate, blood pressure, oxygen requirements, respiratory rate, LOC
  - Signs & symptoms of a head or spine injury post-fall
  - New or recurring chest pain
  - Positive sepsis screen and clinically unstable
  - Persistent, uneasy feeling about patient's condition

STAT TEAM
INPATIENTS 10 MINUTE RESPONSE TIME
- Acute changes in neurological status or stroke-like symptoms:
  - Balance
  - Eyes
  - Facial drooping
  - Arm weakness
  - Speech difficulty
  - Terrible headache
*Stroke hotline: 649-5880/NCLEX-Urgent needs 24-hour NPH, education, discharge questions

BERT TEAM
INPATIENTS OUTPATIENTS VISITORS
- Self-destructive or self-harming behavior
- Confusion or agitation
- Aggressive, threatening, violent behavior
- Destruction of property

STROKE
- Signs and symptoms of an ischemic limb
  - Pulselessness
  - Paralyzing cold
  - Pallor
  - Pain
  - Paralysis
  - Paresthesia

ISCHEMIC LIMB

Aurora St. Luke's Medical Center
Food and Drink:
The cafeteria is in the lower level of the North building and hours are primarily during day shift. Seating is available in the cafeteria.

Starbucks is located on the first floor near MOB1. Hours are variable but are typically morning through early afternoon.

Faculty Badge:
If you do not have an AAH-issued faculty badge, we need to submit a request for activation of your faculty badge. To do so, we must submit a photo of you with the request.

- Send a JPG picture of yourself to site school liaison to obtain nursing faculty badge.
  - Take photo with a plain background.
  - Photo should include only head and shoulders.
  - Verify photo is a JPG format and straight up and down.

The turnaround time from request to badge is typically quick, but we would like to get this request made as soon as possible.

If you are an AAH teammate, unit access will be added to your teammate badge. You will be expected to use this badge for access but wear your school’s faculty badge.

If you have an AAH issued faculty badge from a previous semester, please send us the complete number from the back of the badge to reactivate.

Please communicate your badge needs prior to the start of the semester.

If you are being issued a new badge, you will pick up the badge from the Public Safety office on the first floor down the hallway from Starbucks.

Student Badges:
Students are not currently issued badges at our site. Only the instructor will receive an AAH badge. Students must wear the identification badges provided by their school.

COVID Reminders:
COVID-19 information will be updated on the Student Website in the section titled “Orientation for Inpatient Instructor and Students.”

Please reinforce the importance and proper frequency of hand washing with your nursing students.
