<td>(e.g., Quality improvement project, practice change project, evidence-based practice project, etc.) <strong>eIRB REQUIRED</strong></td>
</tr>
</tbody>
</table>

**eIRB Application- Required for ALL Projects**

This project placement request will not be cleared to start until the official Determination memo is uploaded to the campus checklist or emailed to the shared email address below.

**ASC-ClinicalAffiliations@aah.org**

**ALL projects** must be submitted for determination through a cloud-based system titled eIRB ([Wake Forest | Select your Wake Forest affiliation (wfu.edu)]); full IRB may be required. This requirement excludes obtaining/observing skills, project/capstone planning courses, and patient-facing clinical hours i.e., a nurse practitioner student. Protected health information may not be taken off Advocate Health premises.

Two approvals are required before the student may begin the clinical rotation.

1. The request is approved in myClinicalExchange (mCE).
2. The student and school clinical coordinator complete compliance and document requirements to obtain a green thumbs up in mCE. The official Determination response memo will be uploaded to mCE by the student. Green thumbs up will be reviewed by our team. The school coordinator will also attest to the rotation which will display a checkmark in Rotation Manager.

*The entire process may take up to one month.*

1. Students: discuss your project idea with the preceptor, unit leaders, and/or bedside clinicians. Obtain approval from the unit/department leader for your project idea.
2. The school clinical coordinator must enter the preceptor’s name and email address into the comment section of the request in mCE. The preceptor will be confirmed by our team.
3. School coordinator: Enter a comment in mCE to indicate the student is an employee or is not an employee in our organization.
4. **Non-employee students:** Email **ASC-ClinicalAffiliations@aah.org** immediately if you are not an employee in our organization. Include your full name, school, clinical rotation location, and start/end date. We will create a Network ID and you must activate the Network ID number. **Current employees have a Network ID number.**
5. **Non-employee students:** Notify the following email address once you have activated the Network ID number. Our team will request SSO access for you.
   - **ASC-ClinicalAffiliations@aah.org**
6. Our team will review and approve the project request in myClinicalExchange.
7. Once the request is approved, the school must add the student to the rotation so they may complete the next steps.
8. Students: Complete your ‘personal info’ in mCE and indicate if you are an employee

Created: 3.12.2019 Created by: Nursing Education and Professional Development Revised 3.7.2024
9. Students: Contact the following email addresses to request eIRB access if you have a Network ID number and have activated the number. Students must apply to eIRB after the Network ID number has been created (a, b, c, d, or n number) and activated.
   - Send the following table to:
     - AC_APPS@WakeHealth.edu to request access to the eIRB website.
     - IRBOffice@aah.org to request the role of the principal investigator (PI).
     - Copy both email addresses.

10. Students: Final rotation clearance will not be provided until the following items are completed in mCE and Workday.
    - Annual education in our learning management system (Workday) if the courses are available.
    - Compliance requirements such as immunizations and background checks (send to your school)
    - Upload the official Determination memo (received from eIRB) or email the memo to the shared email address on page 1 of the document.

11. Students: Review the eIRB platform interactive course.
    - Select a Review Type - eIRB | Rise 360 (articulate.com)
    - Select the non-human subject research course. Follow the step-by-step instructions when submitting the application.

12. Students: Login Wake Forest | Select your Wake Forest affiliation (wfu.edu)
    - Select Advocate Health
    - Use the aah.org email address to login.
    - Recommendation: Login using the Advocate Health Network or VPN.

13. Reminders: Answer all questions in their entirety
    - Is this study considered Human Subject Research?
      - No
    - Select a region.
      - Select Advocate of Illinois, Aurora if Wisconsin.
    - Does the project involve a systematic investigation, including research development, testing, and evaluation, designed to develop or to contribute to generalizable knowledge?
      - No
    - Study coordinator: Search for your name.
    - Answer all questions and select OK.
    - Requested Review Type:
Select Not Human Subjects Research

- My activities section:
  - Submit application (left side)
- Biosketch
  - Upload your resume or CV.

14. CITI training is not required for quality improvement projects. It is only required if the student is participating in human subject research. You may receive an automated email stating IRB: Certification Problem with Study Team Member.

15. eIRB questions:
   - Email eIRBhelp@WakeHealth.edu
   - Select the Contact Us page on the eIRB platform.

16. Students: Check the status of your request on the eIRB platform (Applications> In Progress). If revisions are required, you will receive an email and may also review the revisions requested in eIRB. It may be determined that your project involves Human Subject Research. If so, you must complete additional application requirements.

17. Determination memo- You will receive an email from eIRB@wakehealth.edu once your application is approved (Subject- IRB: Notification of IRB Approval). Log in to eIRB to obtain the official determination memo, please upload it to mCE.
   - Click Application
   - Approved
   - Click the Name of your project.
   - Open the IRB Memo
   - Save the document to your device.

18. Our team will review the memo and send a clearance email when a green thumbs up and attestation checkmark are noted in myClinicalExchange. The clearance email will be sent to the school coordinator, preceptor, and student. You may begin the project after the clearance email is received.
