Aurora Medical Center – Mount Pleasant opened its doors to patients on Feb. 1, 2022. Located at the intersection of I-94 and Hwy. 20, this new medical center is dedicated to improving the health and wellness of the people we serve in the Racine, Kenosha, and Northern Illinois area. As a center for excellence in health and healing, we offer emergency, outpatient and rehabilitation care, along with inpatient care including medical and surgical care and intensive care. A shining example of modern medical technology, Aurora Mount Pleasant features high-tech innovations designed to deliver precise, expert care, and help our patients stay safe, connected and involved in all steps of their medical care and treatment. The medical center offers a wide range of specialty care in a compassionate and culturally affirming setting to help everyone we serve live well.

**CLINICAL EXPERTISE AND SPECIALTIES**

**Emergency Care**
Level III Trauma Center and Primary Stroke Care including Telestroke (certifications pending).

**Orthopedic and Rehab Services**
Whether you’re experiencing symptoms for the first time or dealing with pain for years, we offer comprehensive orthopedic care, along with athletic training, occupational therapy, speech and physical therapy to help you get back on your game.

**Cardiac Care**
Heart and vascular care in conjunction with leading Aurora St. Luke’s Medical Center, dedicated to prevention, diagnosis and treatment.

**Advanced Imaging**
Imaging Services offering a full array of advanced services for diagnostic, testing and treatment, including X-ray, CT, MRI, fluoroscopy, ultrasound, vascular stress testing and nuclear medicine.

**CARING FOR OUR COMMUNITIES**

Seeking LEED certification. In the interest of sustainability and environmental stewardship, Advocate Aurora will seek a Leadership in Energy and Environmental Design (LEED) Silver certification. Features in the new facility include solar panels, low-emitting materials, electric car chargers, green spaces, and more.

Cancer Nurse Navigators serve as advocates, provide support for survivors and give recommendations for healthy lifestyle changes. At each stage of your diagnosis and treatment, a nurse navigator will be there to help ease your fears and help you focus on what matters most: fighting cancer.

Community Center
Aurora Mount Pleasant is more than a hospital, it is a hub for health and healing, empowering all members of the community to live their best lives. We’re focused on being not just a health center but an education center as well, including Community Center meeting rooms and health programs.
